नंबर/ No. IITD/IESI/2025/38/631

दिनांक/ Dated: 13.03.2025

अधिसूचना / NOTIFICATION

विषय: उच्च शैक्षणिक ग्रेड (HAG) स्केल के लिए संशोधित मानदंड।

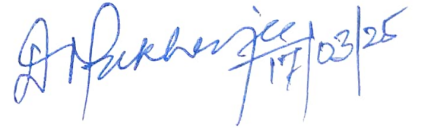

Subject: Revised norms for Higher Academic Grade (HAG) Scale.

बोर्ड ऑफ गवर्नर्स (BoG) ने दिनांक 29.01.2025 की अपनी बैठक में संकल्प संख्या BG/18/2025 के माध्यम से IIT दिल्ली में उच्च शैक्षणिक ग्रेड (HAG) स्केल यानी वेतन स्तर-15 के लिए संशोधित मानदंडों को मंजूरी दे दी है। HAG स्केल के लिए स्वीकृत मानदंड इस अधिसूचना के अनुलग्नक-I के रूप में संलग्न हैं।

The Board of Governors (BoG) in its meeting dated 29.01.2025 vide Resolution No. BG/18/2025 has approved the revised norms for Higher Academic Grade (HAG) Scale i.e. Pay Level-15 at IIT Delhi. The approved norms for HAG Scale is enclosed as Annexure-I to this notification.

इसे सक्षम प्राधिकारी के अनुमोदन से जारी किया जाता है।

This is issued with the approval of the Competent Authority.

Appendix-10

IIT Delhi Norms for HAG scale

REVISED HAG ASSESSMENT TABLE

Activity	Group	Weightage	Inactive	marginal	Satisfactory	Good	Excellent	Outstanding
Teaching	A	0.8-1.2	0	1	2	3	4	5
Research	A	0.8-1.2	0	1	2	3	4	5
Sponsored Research	B	0.5-1.2	0	1	2	3	4	5
Extensional activities	B	0-1.0	0	1	2	3	4	
Administration	B	0-1.0	0	1	2	3	4	
Total Score = Sum of (weightage * score) for the selected four components								

Presently faculty get scored from best 4 of 5 components (two compulsory components of group A and best 2 of out of three in group B). Each component has equal weight.

It is proposed that, instead, when applying faculty should choose the two components of Group B they wish to be considered and indicate the proposed weightage for each component picked (two components each from Group A & B). This is in line with the annual appraisal process where faculty members have the freedom to weight their contributions for evaluation in different categories. Total weightage needs to be 4.0 resulting in max possible score 20 as now. We propose that for selection for empanelment for HAG a minimum score of 12.5 will be applicable (same as current board approved norm).

The scoring for each criterion will be done by a suitably chosen panel of three internal and two external reviewers. Each reviewer will use their expert judgement to assign scores keeping in view the quantitative factors (number of courses taught, papers, projects etc) while also giving due weightage to the qualitative aspect (quality of teaching, high impact publications/technologies developed, projects of national importance).

Reviewer decision is final on the scores assigned. At the beginning of the evaluation process for an assessment year, the committee of evaluators can agree on detailed specialization-wise norms as deemed fit for scoring based on teaching, research papers & student

supervision and admin/extension activities. Given below are general guidelines to assist the reviewers in assigning scores.

1. Teaching: Two lecture courses (as a course coordinator) a year will be considered as the minimum expectation as per institute norms. This may differ between departments & centres. Teaching for practical/seminar and other course loads be given due consideration. In addition to the number of courses taught by the faculty, the reviewer may take the qualitative aspects (such as those given below) into account while providing a score:

- a. Teaching feedback
- b. Teaching awards
- c. Innovation in pedagogy
- d. Innovative high impact new courses developed
- e. B. Tech/M. Tech Project Supervision
- f. Handling of a number of large classes (as defined by Dean Academic) or much larger number of courses taught than the average.

2. Research: Two components, publication & PhD supervision will be considered.

Publications: Normally the focus should be on (a) publications in International (peer reviewed) Highly rated Venues (b) publications in Journals which have had a significant impact. We should primarily count only these publications. It is expected that a Professor should publish at approximately the same rate as he/she was publishing prior to becoming Professor alternatively there should be a jump in the Quality and Impact of the publications even if the number is lower.

PhD supervision: Only PhD's graduated individually or jointly (counted pro-rata) will be considered. The supervisor should normally have graduated 2-3 PhD's in last 6 years. Suitable weight can be given to MS students graduated by the faculty. The abstract/publications arising out of these thesis may be used to judge the quality to arrive at the score.

3. Sponsored projects: Sponsored research and/or R&D Consultancy project which has significant impact should be prioritized. Normally two or more high impact sponsored/Consultancy (R&D based) projects completed during the last 6 years could be considered for excellent category.

4. Extensional activities: More than two activities of International/National reputes, member of international bodies e.g., IPCC, Fellow India Academies (INSA, INAE, NASI, IASc) as recognised by MoE, Fellow of International Academies (NAE USA, TWAS, IEEE, FRS UK; Fellowship obtained on payment basis or that of other professional bodies are not counted), Editor/Assoc Editor SCI/ESCI journals (Ed board members, Reviewers etc are not counted), Rashtriya Vigyan Puraskar, Padma Award, JC Bose Fellow, whereby IIT Delhi's image is uplifted, would result in score of excellent. The intent is that the Extension activities must be high impact and

requiring substantial commitment. Significant CEP/NPTel/ Swayam courses, impactful Textbooks/Research Monographs written or other similar significant activities can be considered in the extension activities.

5. **Administration:** The reviewer may examine contributions as Deputy Director/ Dean/ Head/ Chairman JEE/Gate/Warden etc. Suitable weightage should be given to nature of responsibility Institute/Department level, duration, size of department/unit and key admin achievements such as such as launching new programmes etc.

Reviewers should look the overall contributions of the faculty in all the above aspects looking at the things in totality to arrive at the final score. For evaluation to be processed, scores from a minimum of 3 reviewers (at least one external and at least two internal) must be received and the median of the total scores may be used. For implementation of the same the Director and or the chair HAG committee may make appropriate decisions regarding process of selection of reviewers and their eligibility.

Item No. B5: To consider revised guidelines for grant of HAG pay scale to Professors

The Board noted that MHRD has issued the guidelines for grant of HAG pay scale, which has been approved by BOG vide Resolution Nos. BG/32/2010 dated 30.06.2010 and BG/58/2010 dated 06.12.2010.

The Board discussed the proposal received from the Dean (Faculty), suggesting to revise the HAG guidelines and method of empanelment to address the case of Professors who meet the benchmark as per Council norms, but cannot be placed because of unavailability of slots. The salient points of the proposal were discussed as under :

1. Faculty members with a minimum of 6 years of experience as Professor as on July 1 in every year are eligible for the movement to HAG pay scale.
2. Performance assessment of the eligible candidates will be carried out by a Selection Committee appointed by the Director with approval of the BoG.

3. The performance of each candidate will be assessed based on activity since becoming a Professor, against the activities listed in the table below, in context of the area of expertise of the candidate.

Activity	Group	Inactive	Active	Excellent	Outstanding
Teaching	A	0	1	3	5
Research		0	1	3	5
Sponsored Research	B*		1	3	5
Extension			1	3	5
Administration			1	3	

* In Group B, only 2 best out of 3 activities will be considered.

4. This table will be used to award an overall performance score to each applicant. Only applicants with overall score greater than or equal to 13 will be eligible to be empanelled for movement to HAG pay scale which implies that in order to be empanelled in the HAG pay scale, the applicant necessarily be 'Outstanding' in at least one of the four activities.
5. The newly empanelled applicants are to be appended to the existing list.
6. Movement to the HAG pay scale will be as per available slots, as evaluated for 1st July of the year.
7. The empanelment list shall be carried over.
8. As of today, i.e. 22.10.2019, the empanelment list is a null list.

The Board also heard the Dean (Faculty), who was invited to apprise the Board. The Board finally approved the proposal as a process amendment as the same finds merit towards simplification of the earlier BOG resolutions dated 30.06.2010 and 06.12.2010.

RESOLUTION No. BG/49/2019:

Resolved that revised guidelines for grant of HAG pay scale to Professors based on activity – performance matrix be approved.

BG - 171 (Minutes)
30.06.2010**Item No. B7: To consider the process of Selection and Movement of Professors from AGP of Rs. 10500/- to AGP of Rs. 12000/-.**

The Board approved the proposed process of selection and movement of Professors from AGP of Rs. 10500/- to AGP of Rs. 12000/-. The Board further decided that Director will Chair the Assessment Committee to be constituted for the purpose. Sh Ashok Thakur, however, stated that such movement be restricted to only 40% of the Professors as per Government of India orders.

RESOLUTION NO. BG/32/2010 :

RESOLVED THAT the following procedure / process of selection and movement of Professors from the AGP of Rs. 10500/- to Rs. 12000/-, be adopted for implementation at IIT Delhi:-

1. All the Professors with experience of 6 years or more be invited to submit an Appraisal form designed for this purpose. The Assessment Committee will evaluate the application as per the criteria recommended by the inter-IIT Committee constituted by the Directors.
2. At present there are no Professors with AGP of Rs. 12000/- and technically all the current Professors having been Professors for more than 6 years, are thus themselves candidates for this movement. For purposes of first assessment, a Committee consisting of five eminent retired IIT Delhi Professors with Director as its Chairman be constituted. The committee members will be treated at par with the selection committee members for payment of honorarium and TA / DA.
3. The Assessment Committee will be constituted by the Director in consultation with the Chairman, BOG and based on the availability of concerned persons as per the selection schedule.

BG - 171 (Minutes)
30.06.2010

4. Based on the experience, the process may be fine tuned / modified for subsequent years. In case of any major changes, the approval of the Chairman, BOG would be sought.
5. The movement will be considered effective from 01.01.2006 and subsequently from 1st January of every year. Existing professors will be evaluated on that basis.

Item No. B2: To consider implementation of MHRD order dated 23.09.2010 regarding grant of HAG pay scale of ` 67000-79000/- in lieu of grant of AGP of ` 12000/- to Professors of the Institute.

The Dy. Director (F) presented the item and apprised the Board that the proposal does not involve any change in the process of assessment already approved by the Board vide Resolution No.BG/32/2010 for movement of Professors from the AGP of `10,500/- to AGP of `12,000/-. Prof. H.C. Gupta, however, emphasized that seniority and total teaching experience should also carry appropriate weightage in the assessment process. The Board noted, however, that the approved process has a built-in weightage for experience, which would be made more explicit during the assessments. It was suggested that the Assessment Committee may also record reasons for not recommending the HAG pay scale of `67,000-79,000/- in each such case.

After brief discussion, the Board approved the proposal for re-wording the earlier Resolution No. BG/32/2010 as under :-

RESOLUTION NO. BG/58/2010: RESOLVED THAT the following procedure/ process of selection and movement of Professors to the new HAG scale of `67,000-79,000/- be adopted for implementation at IIT Delhi:-

1. All the Professors with experience of 6 years or more as on 18.08.2009 be invited to submit an Appraisal Form designed for this purpose. The Assessment Committee will evaluate the application as per the criteria recommended by the inter-IIT Committee constituted by the Directors.

B5(5)

BG – 173 (Minutes)
06.12.2010

2. At present there are no Professors in the new HAG scale of '67,000-79,000/- and technically all the current Professors having been Professors for more then 6 years as on 18.08.2009 are thus themselves candidates for this movement. For purposes of first assessment, a Committee consisting of five eminent retired IIT Delhi Professors with Director as its Chairman be constituted. The committee members will be treated at par with the selection committee members for payment of honorarium and TA/DA.
3. The Assessment Committee will be constituted by the Director in consultation with the Chairman, BOG and based on the availability of concerned persons as per the selection schedule.
4. Based on the experience, the process may be fine tuned/modified for subsequent years. In case of any major changes, the approval of the Chairman, BOG would be sought.
5. The movement will be considered effective from 18.08.2009 and subsequently from 1st July of every year. Existing professors will be evaluated on that basis.
