

**INDIAN INSTITUTE OF TECHNOLOGY DELHI
HAUZ KHAS, NEW DELHI – 110016**

(ESTABLISHMENT – I SECTION)

No.: IITD/IESI/2023/216571

Dated: 22-11-2023

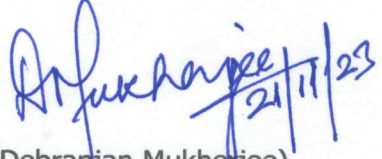

NOTIFICATION

A New Faculty Seed Grant (NFSG) of up to Rs. 20 Lakhs has been available to new faculty joining the institute to be availed within 3 years of joining. The process of applying and managing the New Faculty Seed Grant (NFSG) has been revamped. The new process to be followed henceforth, is as follows:

1. The new faculty prepares a proposal with a budget (as per guidelines of expenditure) and submits it on IRIS. To submit a proposal, log in to IRIS and under the "**IRD Support**" tab click on "**Seed Grant for New Faculty**" link (under IRD Schemes for Faculty). The currently available format may be used to create the proposal and uploaded (hard copy need not be submitted).
2. The following budget heads are permitted:
 - a. NFSG-Consumables
 - b. NFSG-Domestic Travel
 - c. NFSG-IIT Delhi HPC Charges
 - d. NFSG-Manpower
 - e. NFSG-Equipment
 - f. NFSG-Software
3. As with any research proposal, the IRIS submission is forwarded by Head of the new faculty's unit (with consultation of DRC/CRC/ScRC, if needed).
4. This is then approved by Dean Faculty after verifying eligibility etc.
5. Then Dean Planning approves and allocates the budget.
6. Once approval of budget is accorded, Dean R&D notifies the MI project with an end date of 3 years from the date of joining.
7. The purchasing, staff hiring etc. will follow standard IRD processes for government grants. Project staff will be as permitted by extant IRD guidelines.
8. Once the 3 years from date of employment is reached or the faculty resigns, the NFSG MI account will be closed.

9. If the faculty wants a reallocation of amounts from one budget head to another, a request needs to be sent to Dean Planning who can then approve it on IRIS.
10. Merging of multiple seed grants of new faculty will be allowed for purchase of equipment with larger academic and research interest in mind.
11. Assets created through such MI projects will be the institute assets.
12. On completion of the project, the faculty will submit a final report on IRIS to the Dean(F) along with the utilization of funds to Dean (Planning).
13. The existing Terms & Conditions of the NFSG as notified by Dean (Planning) on 06-06-2016 will apply till further notice.
14. Faculty who have active previously approved seed grants with manpower component may write to Dean (Planning) to transfer the project to IRIS. Such a request for transfer of the seed grant project to IRIS should be included with a statement of expenditure already made under plan (equipment) and non-plan (recurring) heads, duly certified by the stores officer of the academic unit. However, in case the Seed Grant does not have manpower component, no action is to be taken.

This has approval of the Competent Authority.
